

## FP-7500 Flat Panel Display Arm

call for price

### Product Description:

The FP-7500 can position your monitor exactly where you want it; with fingertip control of both vertical and horizontal movement. The integral gas assist arm renders the monitor weightless.

The arm can fold to fit in about 3" of space and extend out over 21".

Unique cable management routes cables inside the arm for a clean installation.

### Features:

Weight range 7-27 lbs (17 to 24" lcs)

Arm rotates 360° at 3 joints.

Monitor tilt mechanism can tilt over 200°.

Adjustable tension at all joints - ideal for touch screen applications.

VESA-monitor compatible

### Typical Applications:

**IntelliTRAC:** rear trac mounted LCDs

The FP-7500 can also be mounted to **TracWALL** and to TBC's **Monitor Beam System** (seen in far right photo)
