Equipment Carts – Overview

STANDARD SERIES

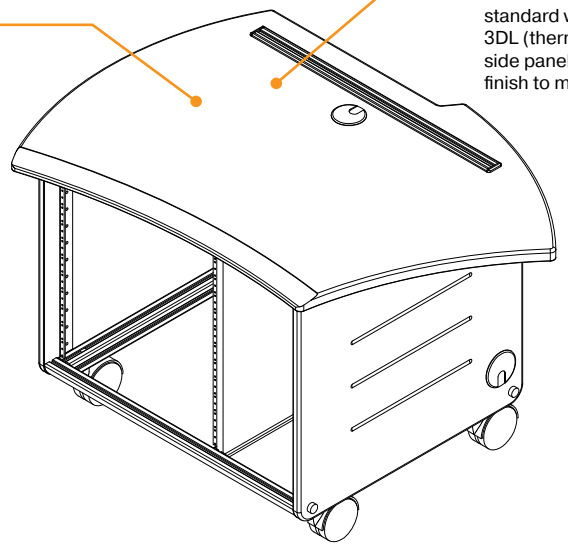
12ru mobile equipment rack. Available in 1-bay, 1.5-bay, and 2-bay configurations. Standard features include ergonomic thermofoil worksurface with embedded device track, vented + removable rear door, heavy duty casters, and front and rear rack rail. (see page 3).

Optional Rack-mount locking drawers for storage, available in 2 - 8 RU sizes.

'N' SERIES NESTED

12ru mobile equipment rack. Available in 1-bay, and 1.5-bay configurations. Also available in a Producer's side table. The worksurface contour "nests" with the desktop profile of SmartTrac consoles. Standard features include ergonomic thermofoil worksurface with embedded device track, heavy duty casters, and front and rear rack rail. (see page 3).

SmartCart Standard and Nested series cart tops come standard with a Shark Grey 3DL (thermofoil) finish. The side panels have a silver 3DL finish to match the console leg.



'V' SERIES VERTICAL

1-Bay mobile equipment rack available in 15, 18, and 24ru configurations. Benefits of vertical configuration include; efficient use of floor space with compact footprint, and allows for equipment at seated eye level in taller versions. Standard features include Thermofoil side panels, vented + removable rear panel, rear device track, heavy duty casters, and front and rear rack rail. (see page 3).

SmartCart Vertical Series side panels come standard with a Shark Grey 3DL (thermofoil) finish.

SC1.5-VB
Vented black HDPE bottom closure pane, 1 bay cart.

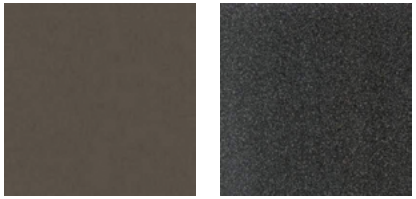
PS-0815-ET
Power strip, 8 outlets, 1Samp, Mounts to interior of cart side panel.

Finishes

The standard finish for TBC consoles includes a selection from any of the below plastic laminate or linoleum colors. The below samples represent color suggestions we have found to be more functional than others in the video production environment. They are more subdued with low light reflection, and would finish the horizontal surfaces of your console. The base cabinets and body of the console would be black laminate, unless you prefer another color that compliments the countertop selection.

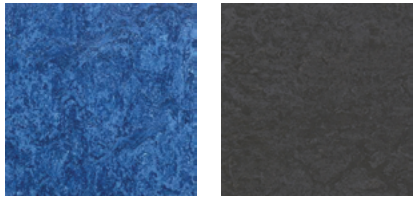
Finishes that do come with an additional premium include, “designer” laminates such as textured metals, Corian® & equivalents, solid woods, wood veneers and acrylic.

LAMINATE



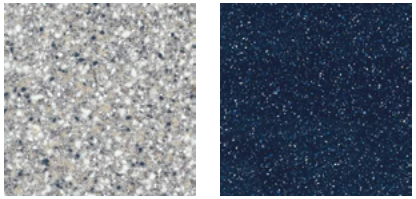
Shale | Graphite Nebula

LINOLEUM



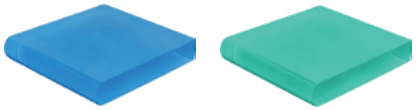
Blue | Slate Grey

SOLID SURFACE



Platinum | Cobalt

ACRYLIC (PLEXI)



Blue | Green

3DL THERMOFOIL SIDE PANELS

(side panels stocked in Shark Grey, Platinum Silver, and Matte Black)
